Pottery Around the World Where Art History meets pottery
2018 Spring session

In our Spring 8 week session, students will learn about new cultures in our Pottery Around the World workshop. This class is a combination of Art History meets pottery. Children will travel the world one masterpiece at a time. The projects are cultural, creative and fun!

In this Spring season, students will learn about Polynesian Tiki Masks, Native American Totem poles and Famous pirate ships from around the world.

Class meets once a week and students will create and glaze their own ceramic creations and will be taught by our accomplished pottery instructor. No prior ceramics or clay experience is required. More

Pick up procedure - Students will be brought to the front vestibule for dismissal from class @ 4:25pm. The class teacher(s) will sign the children out there as parents come to the doors to pick up their children. This way, parents will not need to buzz in through the office, and can wait in their vehicles until the classes
